

# Coin Beacon EM-BC

IDENTIFY | LOCATE | SENSE | MONITOR | DETECT

## EM-BC: durable, flexible, replaceable battery

With its **state-of-the-art AoA** support, EM-BC can provide **precise localization** in facilities and at job sites.

Its soft cap, **pushbutton**, and **LEDs** for **staff safety** in hospitals, schools, and hotels.

It **runs for up to ten years** on a single coin cell, but has a **replaceable battery** for when that's not enough.

Equipped with the optional **temperature and humidity sensors** it's perfect for **cold chain**, too.
