

# Potted Beacon EM-BP

IDENTIFY | LOCATE | SENSE | MONITOR | DETECT

## Compact, rugged and ultra-long battery operation: our EM-BP

The potted package of EM-BP protects it in the most rugged environments.

In warehouses, shipping and construction sites, EM-BP can track tools and other assets.

With the optional accelerometer, it can monitor equipment and detect shocks.

And with EM's mastery of low power design, it runs up to ten years from a single coin cell battery.

## Main features

Rugged

Small & Light

Embedded Sensing

Extreme Temp.

Ultra-Long Operation

Customization
