

# Tiny Beacon EM-BT

IDENTIFY | LOCATE | SENSE | MONITOR | DETECT

## An ultra-small, low-cost beacon for short term tracking

In the hospital, patient tracking with EM-BT improves patient safety and operational efficiency.

At amusement parks and on cruise ships EM-BT delivers insights on guest traffic for targeted interaction and operational data.

For conferences and tradeshows, concerts and sporting events, EM-BT manages access and tracks resource utilization.

EMBT can be used for short term tracking of objects: parcels, high value good, etc.
